DESIGNING PLAYFUL SYSTEMS WITH PURPOSE.

A multidisciplinary practice built through graphic design, UX/UI, branding, web, advertising, interaction, and visual storytelling.

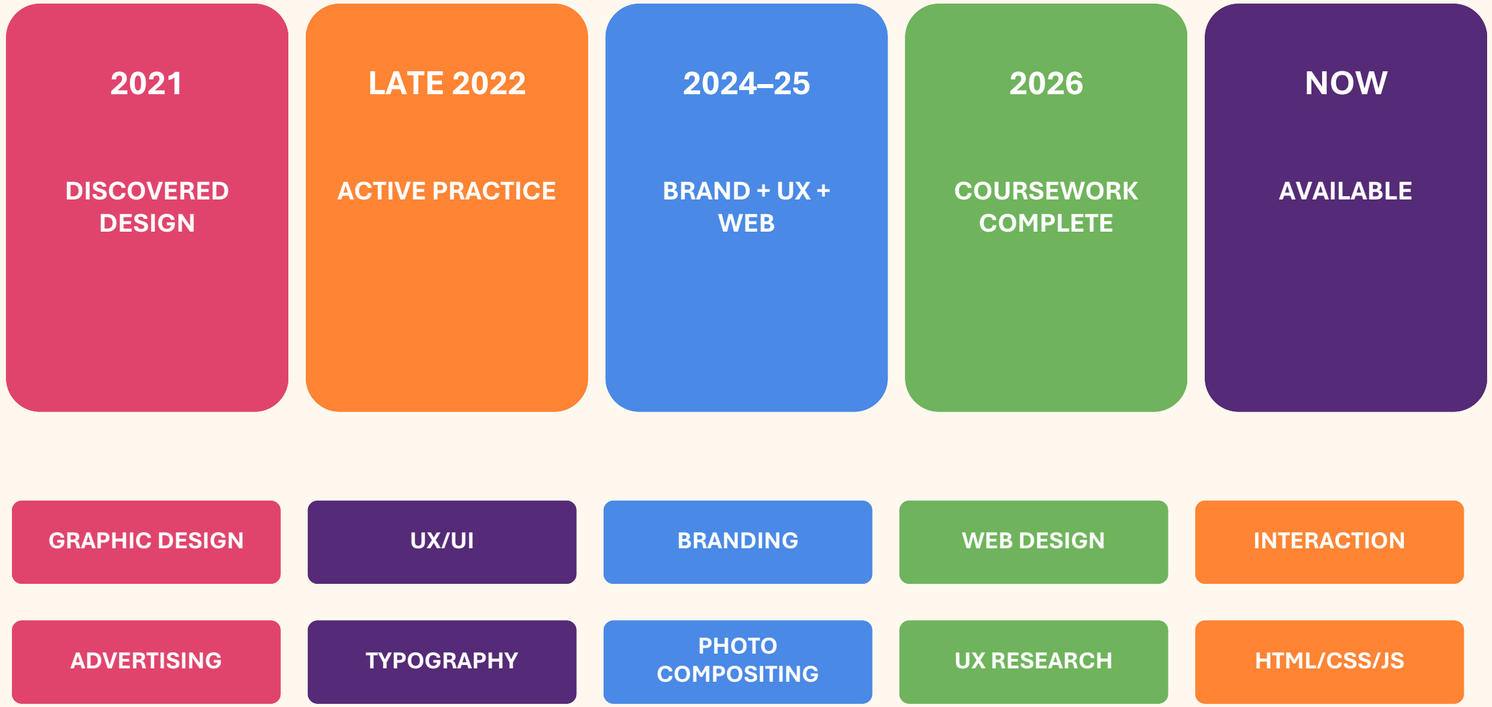

PROFILE

I discovered graphic design around 2021 and began practicing consistently in late 2022. Since then, my work has expanded from posters, ads, and photo manipulation into UX/UI, brand systems, responsive websites, front-end coding, interaction design, and research-driven product concepts.

GOOGLE UX DESIGN CERTIFICATE • 2026

UT DALLAS • GRAPHIC DESIGN • COURSEWORK COMPLETE

NEARLY 4 YEARS OF HANDS-ON PRACTICE

THE COMPLETE PROJECT UNIVERSE.

Completed and presentation-ready work across product, web, branding, campaigns, posters, composites, and early experiments.

UX / PRODUCT

SaveSip / Cup$i • Berry Vibes Recipe Builder • SmartCart • Crosswalks That Explain Themselves / nowWhat

WEB / INTERACTION

Berry Vibes final cookbook • History Battle Academy • CCD Recipe Battle • Cozy Recipe Quilt • Customizable Recipe Quilt • Hypertext Narrative • Concrete Poem / A Web That Opens • New York → Texas concrete poem • HTML/CSS resume page

BRAND / IDENTITY

NYC 2028 • Liberty Lights the World • Enchanted Brew • Brew at Home • Cup$i logo system • NF Coffee • JS monogram • Letterform exploration

CAMPAIGNS / ADS

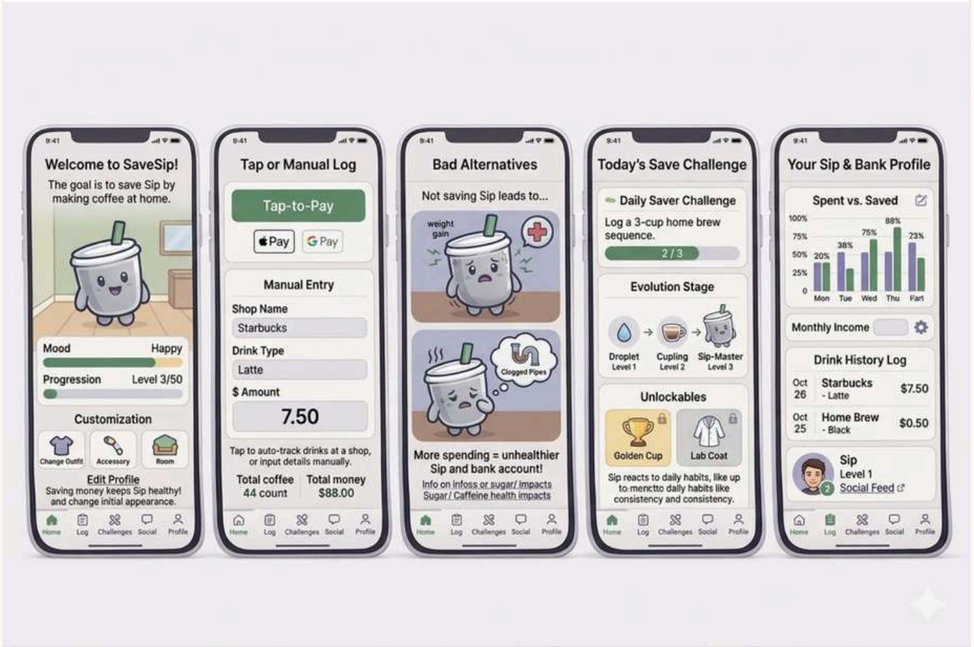

Just Buy It • I'm Buyin' It • McHappiness+ • McDonald's food ad • Burger poster • iGuard • Degree Cool Rush • Airbnb Escape • Apple Juice ad • Ribs poster

POSTERS / TYPE / ART

FE!N • Selena Gomez typography • March Madness • Summer Alt Sounds • Design Is the Key • Escape • Stargazing • Editorial collage • Blue Moon • Underwater • Double Exposure • Resilience • Journey illustration • Cookie illustration • Water graphic • Coffee Pop-Out

SAVESIP / CUP$I

A gamified drink-spending tracker that turns small café purchases into visible savings habits.

RESEARCH • WIREFRAMES • UI • BRANDING • GAMIFICATION

THE PROBLEM

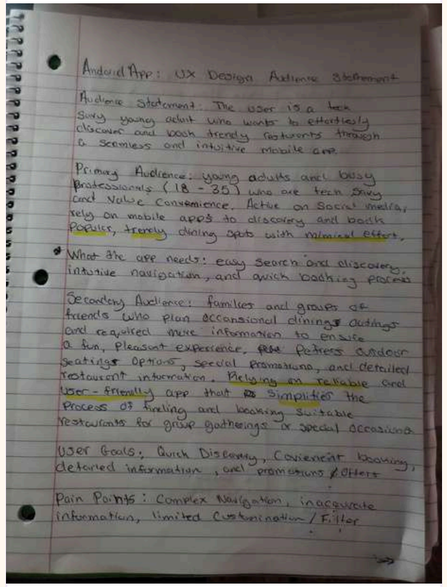

Small coffee, boba, and café purchases feel harmless in the moment, but repeated purchases add up. Traditional budgeting tools can feel cold or spreadsheet-heavy.

THE DIRECTION

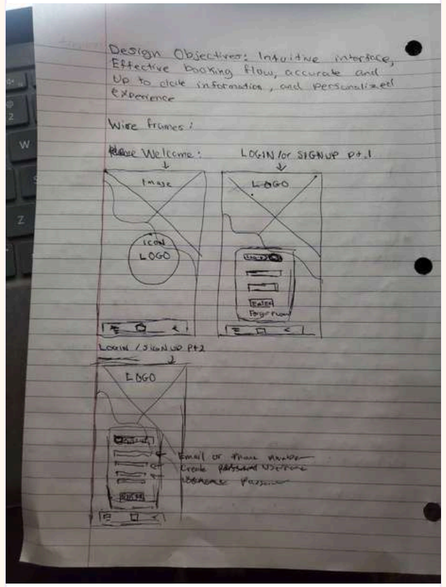

Cup$i evolved into SaveSip: a warmer product story using mascots, challenges, savings feedback, and a community/recipe layer.

RESEARCH BEFORE POLISH.

Audience statements, notes, personas, low-fidelity flows, and high-fidelity interface planning.

RESEARCH NOTES

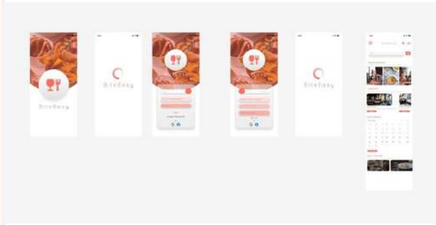

WIREFRAME NOTES

	GOALS	PAIN POINTS
	• Discover new and trendy restaurants. • Easily make reservations without hassle. • Find detailed information and reviews about dining options	• Frustrated by apps with complex navigation. • Disappointed by outdated or incorrect restaurant information. • Annoyed by limited customization options in search filters.
EMILY PARKER	**LIKES**	**DISLIKES**
Age: 26 Gender: Female Occupation: Marketing Specialist Location: Austin, Tx Emily is a young marketing professional who enjoys dining out with friends and trying new restaurants. She values convenience and is always looking for trendy spots to explore during her weekends.	• User-friendly search and booking functionality. • Accurate and up-to-date restaurant details. • Ability to filter by preferences like outdoor seating or special offers.	• Poor work ethic • Discrimination • Refusal to communicate

PERSONA

INTERFACE PLANNING

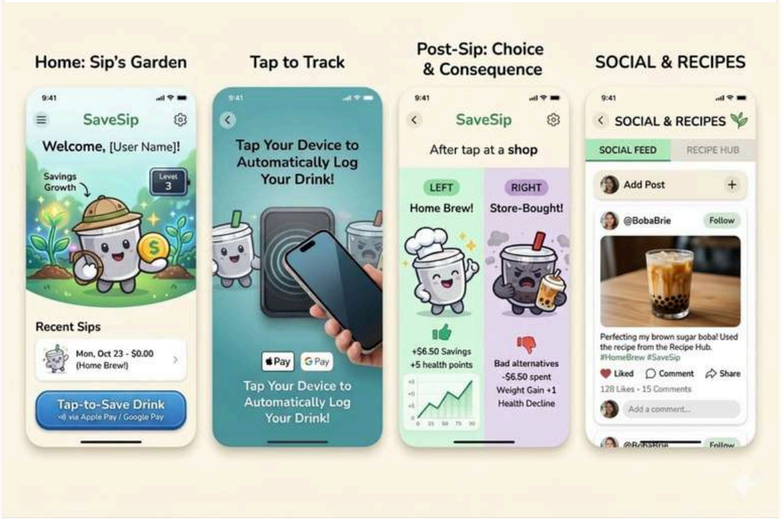

LOW-FI WIREFRAMES

PROCESS: PROBLEM → AUDIENCE → FLOW → WIREFRAMES → VISUAL SYSTEM → HIGH-FIDELITY UI

A CUTE APP WITH SERIOUS PRODUCT LOGIC.

Tracking, comparisons, goals, unlockables, challenges, and savings feedback.

FEATURE SYSTEM

Tap-to-track or manual drink logging
Home brew vs. store-bought comparison
Sip mood, levels, unlockables, and challenges
Savings dashboard
Recipe/community content

DESIGN GOAL

Make saving feel visual, fast, rewarding, and emotionally approachable.

BERRY VIBES • FINAL DIGITAL COOKBOOK

A continuous recipe website combining original recipe sketches, branding, typography, information design, and animated scrolling.

ATCM 2335 • INTERNET STUDIO I • WRITING PORTFOLIO

BERRY VIBES STUDIO

Final Project Writing Portfolio

A continuous digital cookbook built from personal recipes, playful branding, custom recipe sketches, and animated web interactions.

Danielle Julian

ATCM 2335 Internet Studio I

50-WORD PROJECT SUMMARY

Berry Vibes Studio is a continuous digital cookbook that transforms Cozy Core Diet recipes into a playful editorial web experience. Custom food sketches, animated recipe reveals, BerryBelle, and scrolling interactions guide visitors through forty-four recipes. The project combines illustration, branding, web design, and storytelling to make recipe browsing feel personal.

INTERFACE | PLAY | ILLUSTRATION | USABILITY | STORYTELLING

Berry Vibes Studio • Danielle Julian

DEVELOPMENT + FINAL ILLUSTRATION DIRECTION

FROM PLACEHOLDERS TO ORIGINAL RECIPE SKETCHES.

Stock food images were temporary during development. The final visual direction replaces them with custom hand-drawn recipe artwork so the website feels authored, cohesive, and connected to the Berry Vibes identity.

Strawberry pancake sketch

Chocolate chip cookie sketch

Iced strawberry latte sketch

Grilled cheese sketch

PROJECT STORY

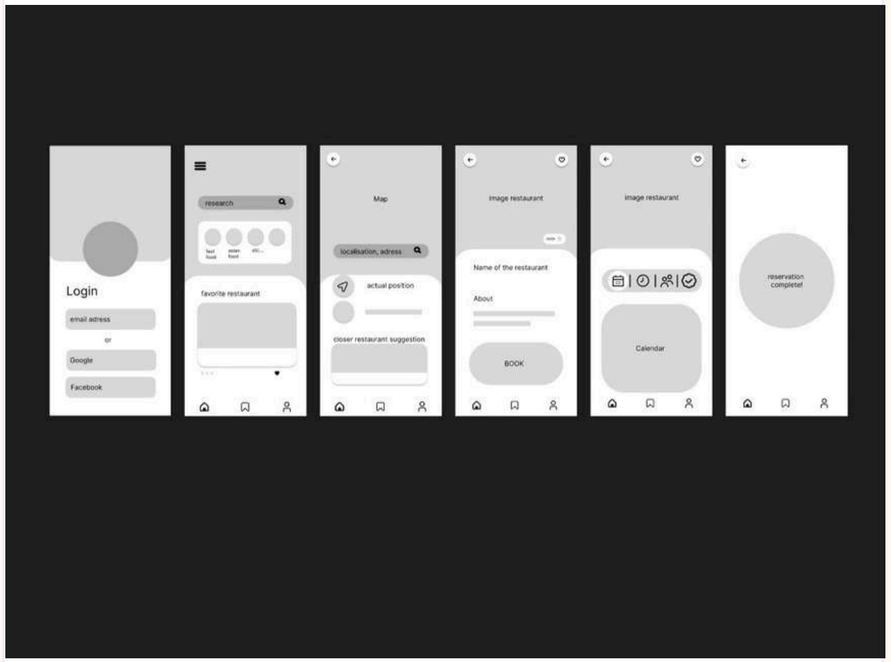

CONCEPT → MOCKUPS → PROTOTYPE → CUSTOM ILLUSTRATION → FINAL WEBSITE

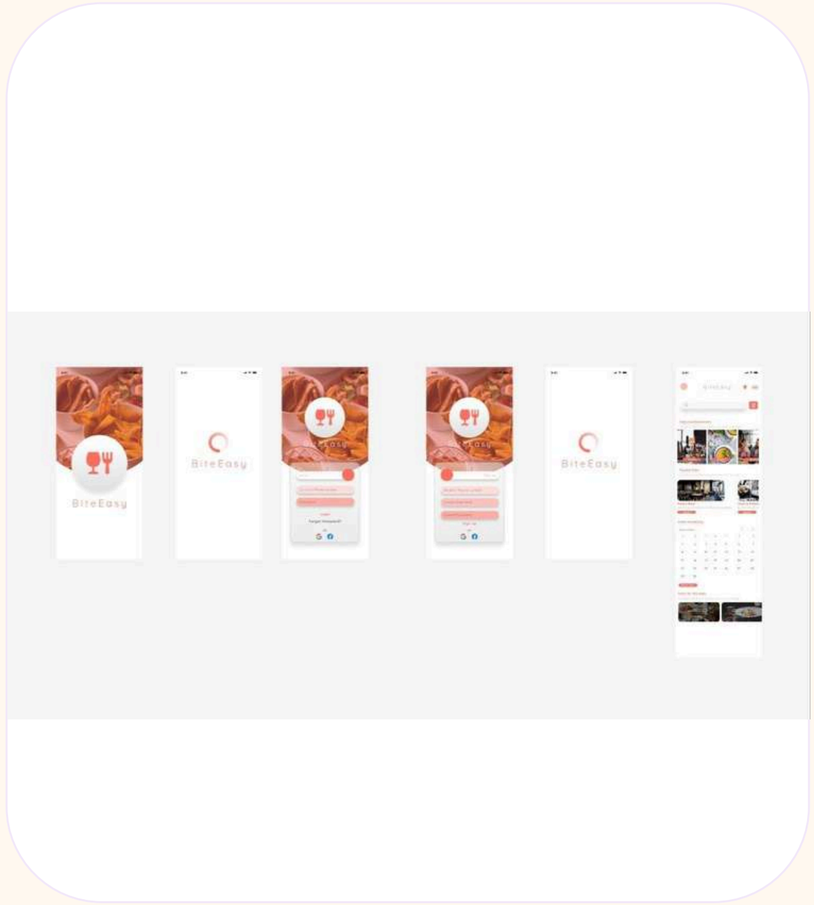

Professional context: This documentation shows the project goal, design process, visual evolution, and final direction so a new viewer can understand the work without relying only on the live-site link.

Berry Vibes Studio • Danielle Julian

RECIPE BUILDER + BATTLE UI

Personalization, guided choices, comparison mechanics, and early interface planning.

SMARTCART

Discovery sprint for faster grocery-list creation, repeat buys, useful customization, and user-controlled smart suggestions.

SmartCart Research Packet

Discovery / Research Sprint (Sprint 1) • Prepared by Danielle • February 21, 2026

Project	SmartCart (shopping list app with repeat-buy suggestions + item customization)
Phase	Discovery / Research
Primary method	Semi-structured interviews (qualitative)
Supporting methods	Competitive audits (direct + indirect), secondary research (reviews + literature)
Sprint length	7 days (recommended)

1. Research overview

Problem space. Current shopping list apps often feel tap-heavy, overly simplified, and limited to cosmetic customization (themes) rather than functional customization (quantity, units, notes). Some apps ask users to input unreliable information such as item prices, which slows list creation and varies by store, taxes, and promotions.

Research goals.

- Understand how people currently plan grocery trips and create lists.
- Identify the top friction points in list creation and in-store use.
- Learn how people handle repeat buys / staples and how they decide restock timing.
- Define trust boundaries for smart suggestions vs auto-add behavior.
- Use evidence to define target audience, core problem, and MVP scope.

Key research questions.

- What triggers a grocery trip and how do people plan it?
- How do people keep track of staples and repeat items?
- What makes list creation feel slow or annoying?
- What item-level details do users actually want to save (quantity, units, notes, store)?
- What makes smart suggestions feel helpful vs intrusive?

Hypotheses to test.

- People do not mind making lists; they mind rewriting the same staples repeatedly.
- Too many taps (or high effort) causes users to fall back to Notes/Reminders.
- Functional customization matters more than theme customization.
- Smart suggestions are welcomed when they are transparent and user-controlled.

RESEARCH FOCUS

Semi-structured interview planning
Competitive audits + secondary research
Repeat-buy behavior and staple routines
Functional customization: quantity, units, notes, store
Trust boundaries for suggestions vs. auto-add
Affinity mapping, HMW questions, and MVP prioritization

PRODUCT PRINCIPLE

Smart suggestions should be transparent, useful, and controlled by the user.

CROSSWALKS THAT EXPLAIN THEMSELVES

A smart-city proposition focused on trust, clarity, accessibility, and fast public decisions.

SYSTEM IDEA

A public-facing crossing interface that uses small context-aware intent cues when normal crossing logic changes or uncertainty is high.

INTERFACE STATES

Approach / idle • Waiting • Walk • Failure / fallback

ACCESSIBILITY

High-contrast symbols • Minimal text • Optional audio support

INTERACTIVE WEB LAB

Responsive coded experiences that move beyond static graphics into interaction, game logic, storytelling, and accessibility.

HTML • CSS • JS

HISTORY BATTLE ACADEMY

Multiple-choice battles, region modes, final challenge, explanations, best-score saving.

CREATIVE CODE

CCD RECIPE BATTLE

Comparison puzzle with scoring, progress, drag-and-drop, and poem reveal.

INTERACTION

COZY RECIPE QUILT

Twelve draggable recipe riddles with touch, click, and keyboard support.

DYNAMIC STATE

CUSTOMIZABLE QUILT

User-selected recipes determine puzzle pieces, clues, colors, and poem order.

WEB STORYTELLING

HYPERTEXT NARRATIVE

A nonlinear multi-page story about creative growth, doubts, audience, and future goals.

CONCRETE POETRY

A WEB THAT OPENS

Typography and spatial layout turn the webpage into a visual doorway.

CONCRETE POETRY

NEW YORK → TEXAS

A visual journey from quiet beginnings to greater confidence and visibility.

SEMANTIC WEB

HTML/CSS RESUME

Professional resume page using hierarchy, typography, and responsive styling.

NYC 2028 • LIBERTY LIGHTS THE WORLD

Olympic identity concept combining the Statue of Liberty, New York skyline, and a concise city-forward silhouette system.

LOGOS, LETTERFORMS + SMALL WORLDS.

Identity explorations ranging from cozy café marks to monograms and modular letterform systems.

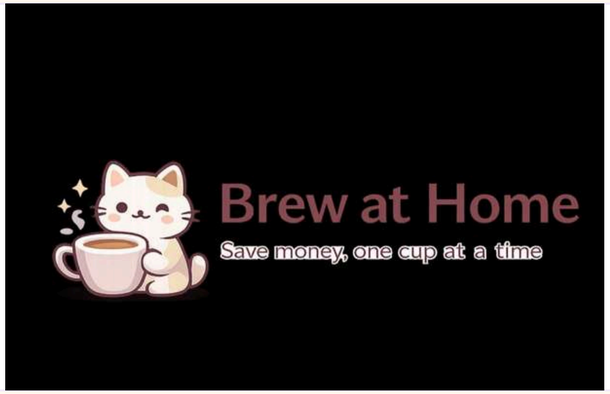

ENCHANTED BREW

ENCHANTED BREW ALT

CUP$I

BREW AT HOME

JS MONOGRAM

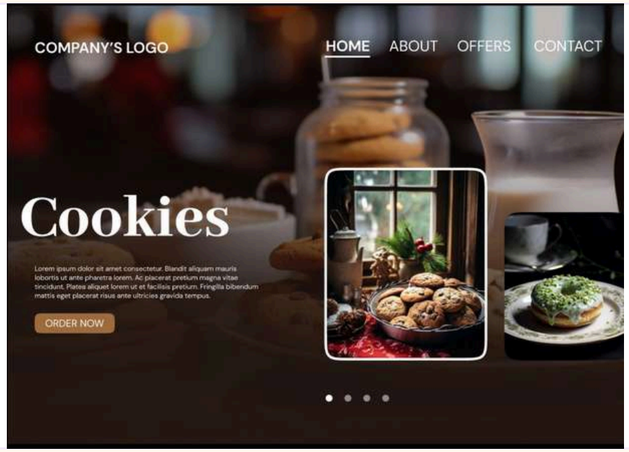

LETTERFORMS

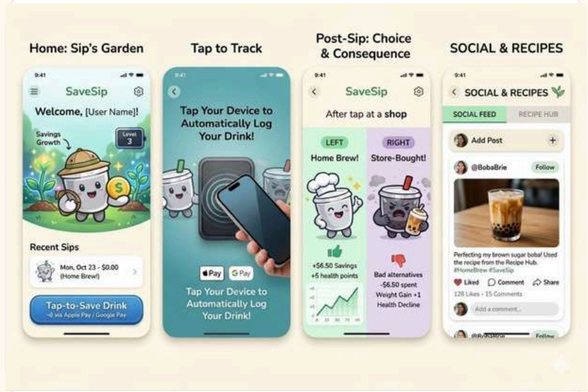

NF COFFEE

FROM STATIC MOCKUP TO INTERACTIVE EXPERIENCE.

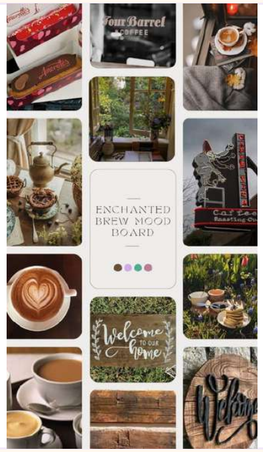

Web design studies, responsive interface concepts, and visual storytelling across desktop and mobile.

BAKERY WEBSITE

MOBILE UI STUDY

MOODBOARD / CONTENT SYSTEM

BILLBOARD MOCKUP

FAMILIAR BRAND LANGUAGE, FLIPPED.

Campaign-style visual satire exploring consumer pressure, status, cravings, convenience, and persuasive advertising.

JUST BUY IT • RUNNER

JUST BUY IT • SHOPPER

I'M BUYIN' IT

MCHAPPINESS+

PRODUCT + FOOD ADVERTISING.

Bold appetite appeal, product focus, and campaign-style hierarchy.
